

Maple Sugaring

Demonstration at Your Location!

Can't make it to the Trumbull Nature & Arts Center for our popular maple sugaring demonstration? We can bring our program directly to your organization or company!

This one-hour program includes:

- **Maple Sugaring Demonstration!** The Trumbull Nature & Arts Center's Environmental Educator will bring our popular program to your location for a one-hour visual presentation.
- **Tapping!** We can tap your site's sugar maple tree if available, or we will demonstrate tapping on our own real-tree model.

Participants will:

- See sap changing as it boils into syrup
- Inhale the delicious aroma of the sugaring process
- Learn the story behind maple sugaring in New England and its Native American origins, the amazing science of sap flow, and the differences between grades of syrup
- **Outdoor Education!** We'll bring materials to see and touch:
 - Native American style sap-boiling log
 - Maple leaf and seed samples
 - Sugaring equipment
- **Tasting!** All participants will get to taste a sweet sample of real New England maple syrup.

Cost: \$300 for a group of up to 30 participants

Program is held entirely outdoors. Suitable for all ages.
